EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 1 and 15, line 2, and claims 2-6, 10, 16-18, and 22, line 1, "station" has been changed to --system--.

Claim 1, line 13, "the upper" has been changed to --an upper--.

Claim 1, line 15, "the lower" has been changed to --a lower--.

Claim 15, line 12, "the outside" has been changed to --an outside--.

Claim 15, lines 13 and 17 "the inside" has been changed to --an inside--.

The following is an examiner's statement of reasons for allowance: the primary reason for the allowance of claims 1 and 15 is the inclusion of a cup shaped carrier having a closed bottom, closed sides terminating in an upper flange and a guide ring extending radially outwardly from the flange, the carrier received within the tube, which is configured for mechanically unrestricted pneumatically dampened freefall of the carrier therein, and automatically operated valves extending across the lower end of the tube forming an airlock between the inside of the tube and the outside environment. The prior art of record fails to teach or suggest the claimed feature absent the applicant's own disclosure.

Art Unit: 3634

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
